

English to French translation

1. The situation of the environment in my town is quite worrying. First of all, they build too many apartment blocks. Secondly, the traffic is unbearable, especially at peak hours. Finally, the air is unbreathable because of the factories.	
2. In my neighbourhood, thirty years ago, there were lots of woods. Nowadays, there are almost no green areas.	
3. Unfortunately most people here take the car because it is faster and the public transport is terrible. The buses are always late and crowded!	
4. In order to save electricity we do not use the air conditioning too often. Moreover, we use low consumption light bulbs and do not spend a lot of time on the computer or in front of the television.	
5. In my school we sort the rubbish, recycle paper, plastic and glass and once a week we plant trees.	
6. I try to help the environment by switching off the lights when I leave a room, putting on a jumper instead of turning up the heating, going to school on foot and switching off the computer instead of leaving it on standby	
7. Yesterday I went to school by bike instead of taking the car. Moreover, I played sport instead of playing on the computer and didn't turn on the air conditioning all day even though it was quite hot	
8. I would like to live in a clean town without pollution and noise. There would be lots of cycling lanes, pedestrian roads, electric cars and underground lines. The town centre would be closed to cars	

1. The situation of the environment in my town is quite worrying. First of all, they build too many apartment blocks. Secondly, the traffic is unbearable, especially at peak hours. Finally, the air is unbreathable because of the factories.	La situation de l'environnement dans ma ville est assez inquiétante. Tout d'abord, ils bâtissent trop d'immeubles. Deuxièmement, la circulation est insupportable, surtout aux heures de pointe. Finalement, l'air est irrespirable à cause des usines.
2. In my neighbourhood, thirty years ago, there were lots of woods. Nowadays, there are almost no green areas left.	Dans mon quartier il y a trente ans il y avait beaucoup de bois. Denos jours, il n'y a presque plus aucuns espaces verts.
3. Unfortunately most people here take the car because it is faster and the public transport is terrible. The buses are always late and crowded!	Malheureusement la plupart des gens prennent la voiture car c'est plus rapide et les transports en commun sont terribles. Les autobus sont toujours en retard et bondés
4. In order to save electricity we do not use the air conditioning too often. Moreover, we use low consumption light bulbs and do not spend a lot of time on the computer or in front of the television.	Afin d'économiser l'électricité nous n'utilisons pas l'air conditionné trop souvent. En plus nous utilisons les ampoules à basse consommation et ne passons pas beaucoup de temps à l'ordinateur ou devant la télé.
5. In my school we sort the rubbish, recycle paper, plastic and glass and once a week we plant trees.	Dans mon école nous trions les déchets, recyclons le papier, le plastique et le verre et nous plantons des arbres.
6. I try to help the environment by switching off the lights when I leave a room, putting on a jumper instead of turning up the heating, going to school on foot and switching off the computer instead of leaving it on standby.	J'essaie d'aider l'environnement en éteignant les lumières quand je quitte une chambre, en mettant un pull au lieu de monter le chauffage, en allant au collège à pied et en éteignant l'ordinateur au lieu de le laisser en veille.
7. Yesterday I went to school by bike instead of taking the car. Moreover, I played sport instead of playing on the computer and didn't turn on the air conditioning during the day even though it was quite hot.	Hier je suis allé au collège à vélo au lieu de prendre la voiture. En plus, j'ai fait du sport au lieu de jouer à l'ordinateur et je n'ai pas allumé l'air conditionné pendant la journée même s'il faisait assez chaud.
8. I would like to live in a clean town without pollution and noise. There would be lots of cycling lanes, pedestrian roads, electric cars and underground lines. The town centre would be closed to cars.	Je voudrais vivre dans une ville propre sans pollution ni bruit. Il y aurait beaucoup de pistes cyclables, de voitures électriques et de lignes de métro. Le centre-ville serait interdit aux voitures.
